Hello to who this email pertains to,

I hope this email finds you well. My name is Gracie Osborne, an uprising senior in Oakland. I am contacting you as an assignment in my American Government class. I think districts should include populations with different views, so splitting with no bias towards constitutes' political beliefs. I understand if there are regions that make this undoable, for the public opinion is mainly the same no matter how cut.

Thanks,

Osborne, Gracie
Oakland Resident
