Thank you for the opportunity to comment on this very important issue. I believe that our COI should reflect ALL people regardless of ethnicity and economic status. Of course those comments regarding maintaining their economic-social-status (even race) may be in the majority. However we as people need to steer away from that. It will take extra effort but we will be a better society for future generations. It will give HOPE. I understand that the comment delivered by Mr. Pierre Bierre is long and philosophical. However, it delivers more than those "protecting their rights".

So my COI is one that we ALL have SAME ACCESS to better education, health services, police and fire services, safe parks and recreation, safe streets, regulated noise pollution. That we don't see others like THE OTHER. That NOBODY is entitled to better services. That we work for the COMMON GOOD without detriment for our own family.

Lines are lines. But they can define us as a community. Fairly or Wrongly. Thank you for reading my comment.
